Black bean sauce base with a hint of chili pepper sauce.
Served with udon noodle.

What is Tteok-bokki?
Tteok-bokki is a beloved Korean street food featuring rice cakes shaped like thick noodles, cut into bite-sized pieces. The traditional version is renowned for its fiery sauce made from chili paste and/or chili powder, delivering a delightful kick. However, many variations of tteok-bokki venture beyond tradition, incorporating diverse sauce bases and unique ingredients.

Why is my **pork katsu pink** inside? 돈가스 **고기가 붉은색**을 띠는 이유

Our pork katsu is cooked at a lower temperature to keep the meat tender. Although the pork is fully cooked to a safe internal temperature of at least 150 degree Fahrenheit, the inside may or may not still appear slightly pink. This can occur in fresh pork due to myoglobin, a natural protein in the meat that may retain a pink color when cooked at lower temperatures. This color does not indicate that the pork is undercooked — **it is fully cooked and safe to eat.**

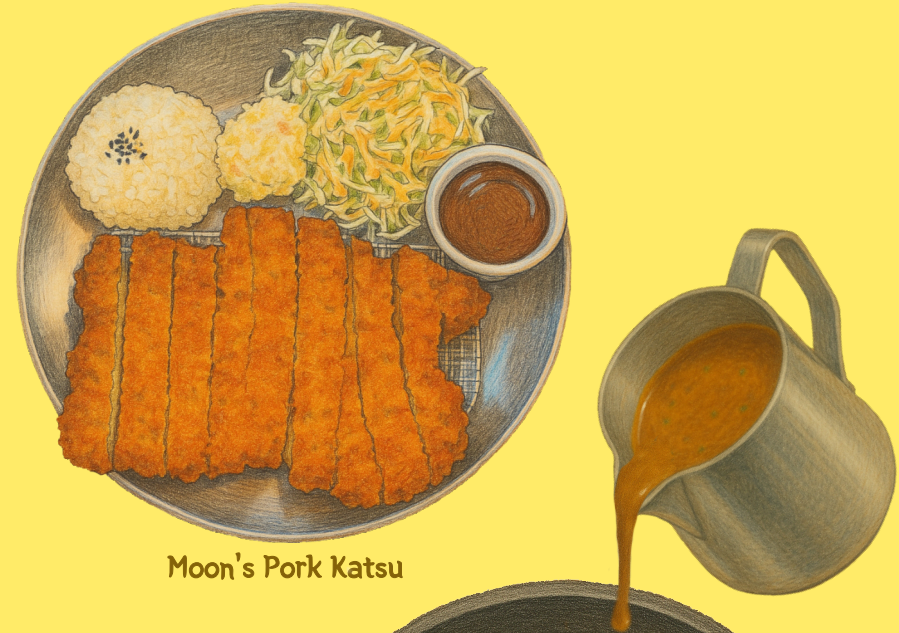

저희 돈가스는 부드러운 식감을 위해 저온에서 조리됩니다. 내부 온도는 안전 기준인 최소 화씨 150도 이상으로 충분히 익혀지지만, 속이 약간 분홍색으로 보일 수 있습니다. 이는 신선한 돼지고기에 포함된 미오글로빈(myoglobin)이라는 단백질이 저온 조리 시 색이 완전히 변하지 않을 수 있기 때문입니다. **이러한 색은 덜 익은 것이 아니며, 안전하게 드실 수 있습니다.**
